Discussion:

Please write a small paragraph discussing teamwork (who did what, how much, was the work allocation fair, did each member respect commitments and deadlines...).

Bilal was the team leader, he assigned the tasks for each person. He covered the user part, Mohamad covered the admin part. Walid covered landing page as well 2 pages, and Nabil covered the Authentication pages (login, register, and the statistics page)

Every single person covered 25% of the project, the work was fair, and every person respected the deadlines.

Bilal covered the deployment part using docker, he created a dockerfile, build it, push it into dockerhub, and deployed the app. Here is the link: [here](#)
